INTRODUCING VOICESCRIBE

AI-Powered Transcription. Professional. Precise. Unmatched.

VoiceScribe isn't just another transcription tool – it's a game-changer for professionals who need clarity, speed, and accuracy. Designed with real-world users in mind, VoiceScribe delivers clean, certified-quality transcripts trusted by lawyers, professors, HR managers, journalists, and more.

Unlike generic tools that produce error-filled, fragmented transcripts, VoiceScribe captures every word with precision. From accurate speaker identification and smart timestamping to flawless formatting and professional export options – VoiceScribe does it better.

Whether you're transcribing a court session, a lecture, or a critical meeting, VoiceScribe ensures your words are captured clearly, securely, and professionally – every time.

✔ What makes VoiceScribe different?

- Handles long recordings – over 7 hours per file
- Automatically detects and labels multiple speakers
- Provides precise timestamps for every spoken segment
- Exports instantly to PDF or Word in a clean format
- Built for professionals: Lawyers, academics, HR, and corporate teams
- 100% privacy-focused – your data stays with you

Transcribe smarter. Work faster. Present better. Only with VoiceScribe.

 VoiceScribe

Transform Speech to Text with AI-Powered Precision

Automatically transcribe your audio files with speaker detection, timestamps, and unmatched accuracy.

POWERFUL FEATURES

Everything you need to transcribe your audio files – fast, accurate, and secure.

Speaker Diarization

Effortlessly identify and label different speakers in your audio files. Keep conversations clear, organised, and easy to follow.

Precise Timestamps

Navigate your audio with ease. Each section of your transcript is marked with accurate timestamps to help you find what you need in seconds.

PDF Export

Download your transcriptions in professionally formatted PDF documents – perfect for sharing, archiving, and presenting.

Lightning Fast

Our high-speed transcription engine delivers results quickly, saving you valuable time without compromising accuracy.

Privacy Focused

We respect your privacy. All files are processed securely, and we never store your transcript content.

Usage Analytics

Gain insights into your transcription activity with personalised usage reports and tracking dashboards.

Multiple Export Formats

Choose the format that works best for you. Download your transcripts as polished PDFs or Microsoft Word documents for maximum flexibility.

Powerful Features

Everything you need to transcribe your audio files

Speaker Diarization

Automatically identify and label different speakers in your audio, making conversation transcripts clear and organized.

Precise Timestamps

Each segment of your transcript includes accurate timestamps, making it easy to navigate to specific parts of your audio.

PDF Export

Download your transcriptions as professionally formatted PDF documents for easy sharing and archiving.

Lightning Fast

Our optimized transcription engine processes your audio files quickly, saving you valuable time.

Privacy Focused

Your audio files and transcriptions are processed securely. We don't store your transcript content.

Usage Analytics

Track your transcription history and usage statistics from your personalized dashboard.

Multiple Export Formats

YOUR VOICESCRIBE DASHBOARD

The VoiceScribe dashboard is your personal command centre—built to keep things clear, organised, and effortlessly accessible. As soon as you log in, you're greeted with a clean, intuitive layout that shows you everything you need at a glance. From managing your audio files to tracking your usage and recent activity, it's all just a click away.

Key Features

At-a-Glance Overview

Instantly see how many minutes you've used, how many transcriptions you've completed, and how much time remains in your monthly plan.

Recent Activity Panel

Quickly access your latest transcriptions without digging—just one click and you're back where you left off.

Real-Time Usage Tracking

Stay on top of your plan with live tracking of your transcription minutes, making it easy to plan your workload and avoid surprises.

Organised File Management

Your uploaded and completed transcriptions are neatly displayed, making it effortless to manage, sort, and locate your files.

Streamlined Navigation

User-friendly interface with clean menus and intuitive controls—no learning curve required.

Secure Access

All actions and files are protected with end-to-end encryption and secure login protocols, giving you peace of mind with every session.

UPLOAD & TRANSCRIBE – FAST, FLEXIBLE, AND FRICTION-FREE

Transcribing audio has never been easier. With VoiceScribe, uploading your audio file is as simple as selecting it, hitting “Upload & Transcribe,” and letting our powerful AI do the rest.

We support all major formats, including MP3, WAV, M4A, FLAC, and OGG, giving you the flexibility to work with the files you already have. You can even add an optional title for easy organisation.

Whether it’s a quick voice note or a detailed multi-speaker recording, our system handles files up to 500MB with ease. And thanks to built-in speaker diarization, you’ll receive clear, structured transcripts that label each speaker for seamless readability.

Once uploaded, your audio moves through a simple, three-step process:

-  Upload – Select your audio file and send it through our secure system.
-  Process – Our smart AI transcribes your content with precision.
-  Results – Instantly view, edit, or download your high-quality transcript.

No delays, no confusion—just powerful, user-friendly transcription at your fingertips.

Upload Audio for Transcription

Upload your audio file to be transcribed with speaker diarization. We support MP3, WAV, M4A, FLAC, and OGG formats.

Title

Audio file*

Supported formats: MP3, WAV, M4A, FLAC, OGG

 Maximum file size: 500MB. Longer files may take more time to process.

 Upload & Transcribe

FULL TRANSCRIPTION HISTORY – STAY ORGANISED, STAY IN CONTROL

VoiceScribe keeps a detailed, well-organised record of all your past transcriptions, giving you complete visibility into your audio processing activity. Each entry is clearly listed by title, date, duration, and number of speakers, making it easy to locate exactly what you need—whether it's a quick voice memo or a multi-hour court recording.

Your dashboard displays a running history by month, helping you track your work over time. Whether you're reviewing a short 1-minute conversation or a 410-minute multi-speaker recording, everything is just a click away.

With built-in action buttons, you can:

-  View your transcript directly in the dashboard
-  Download as PDF for archiving or sharing
-  Download as Word Doc for editing or collaboration
- 

Need to recheck a transcript or resume where you left off? It's all right there. And if there's a file that encountered an issue, it's clearly marked for your attention.

Your work stays secure, searchable, and always accessible—because transcription should be as smart and efficient as you are.
